

Number Shape Multiplication 2x Tables

I can write multiplication statements using the multiplication and equals signs.

For each image, write the multiplication fact shown.

For example:

$$3 \times 2 = 6$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

Challenge:

Jayne says, "5 × 2 is the same as 2 × 5."

Is she correct?

Use your number shapes to show how you know.

Answers

$$4 \times 2 = 8$$

$$5 \times 2 = 10$$

$$7 \times 2 = 14$$

$$9 \times 2 = 18$$

$$3 \times 2 = 6$$

Challenge:

She is correct.

Children might line up five of the 2 number shapes and two of the 5 number shapes to show the equality.
