IN AID OF

Framework

For your future

Hi Everyone,

My name is Lewis and I am the current youth patron for Framework, a Nottingham charity that helps tackle the issue of homelessness.

I have raised money over the last couple of years by taking part in various events, such as sleep outs, doughnut sales, holding a toy sale and running lots of miles, but now I need your help to raise more funds for this important cause. I am asking you to be part of the 'Change for Change' campaign.

Change for Change is simple. You just need to think of a way that you could help a member of your family or family friends by doing a helpful job or task, such as helping to put the washing up away, or hanging the washing out, doing some dusting in exchange for just £1. I am asking if everyone can do at least one thing or maybe just 3 things to raise £3, that would be great. Then that small amount all together can help make a huge difference. How many people are there in your class? Your year? Your whole school?!! Just think all those small amounts from each of you all together means collectively we can make a huge impact and difference to someone else's life. You can help with change, to change someone else's life!

I look forward to your support and hearing all about the wonderful things you have done.

Good luck,

Lewis
